Open Identity Solutions for Open Government

The Open Identity Initiative seeks to leverage existing industry credentials for Federal use. The Initiative approves credentials for government use through our Trust Framework Providers who assess industry Identity Providers (IDPs).

The Trust Framework Provider Adoption Process [http://www.idmanagement.gov/documents/TrustFrameworkProviderAdoptionProcess.pdf] outlines the process that the ICAM community uses to sanctify organizations that assess commercial identity providers.

Deborah Gallagher (March 9, 2011) Open Identity Solutions Trust Frameworks (Introduction) [http://www.idmanagement.gov/presentations/OpenIdentitySolutionsTrustFrameworks_Detail_030911.pdf]

Chris Louden (March 9, 2011) Open Identity Solutions Trust Frameworks (Details) [http://www.idmanagement.gov/presentations/OpenIdentitySolutionsTrustFrameworks_Detail_030911.pdf]

Trust Framework Providers:

- Open Identity Exchange - Level of Assurance 1 (Provisional Approval)
- Kantara Initiative - Level of Assurance 1, 2, and non-crypto 3 (Provisional Approval)
- InCommon Federation - Draft submission under review

The Scheme Adoption Process outlines the process that the ICAM community uses to develop and/or approve specification profiles for achieving portable identity over the Internet.

Adopted Schemes:

- ICAM OpenID 2.0 Profile - Level of Assurance 1 (Fully adopted)
- ICAM IMI 1.0 Profile - Level of Assurance 1, 2, and non-crypto 3 (Fully adopted)
- ICAM SAML 2.0 Web Browser SSO Profile - Level of Assurance 1, 2, non-crypto 3, and holder of key 4 (Fully adopted)

Certified Identity Providers:

- Google - ICAM OpenID 2.0 Profile, Level of Assurance 1 [http://google.com]
- Equifax - ICAM IMI 1.0 Profile, Level of Assurance 1 [http://equifax.com]
- PayPal - ICAM OpenID 2.0 Profile, Level of Assurance 1 [http://paypal.com]
- PayPal - ICAM IMI 1.0 Profile, Level of Assurance 1 [http://paypal.com]
- VeriSign - ICAM OpenID 2.0 Profile, Level of Assurance 1 [http://pip.verisignlabs.com]
- Wave Systems - ICAM OpenID 2.0 Profile, Level of Assurance 1 [http://wave.com]

Presentation from Chris Louden at the Open Government Identity Management Solutions Privacy Workshop held on August 10, 2009
