Unicon Welcomes Six New Academus and uPortal Services Clients

BCcampus, Capital University, Chaminade University of Honolulu, University of Kansas, Ozarks Technical Community College, and Rutgers University Join Growing Unicon Community.

CHANDLER, AZ - October 7, 2004 – Unicon, Inc. today announced that Capital University, Chaminade University of Honolulu, and Ozarks Technical Community College have recently selected Unicon's Academus as the Enterprise Portal Solution for their respective institutions.

"We welcome these fine institutions as the newest members of the rapidly growing Unicon family," said John Blakley, Unicon, Inc. CEO. "The expansion of our client community is indicative of Unicon's intentional outreach to educational institutions that are looking for powerful and sensible solutions."

Unicon will also be providing a variety of uPortal Professional Service work for BCcampus, University of Kansas, and Rutgers University. BCcampus will be working with Unicon to upgrade its communities to the recently released uPortal v.2.3.5.

"BCcampus was impressed with Unicon's record of achievement in customizing the Open Source uPortal software to meet the needs of academic institutions in many different parts of the world," said David Porter, Executive Director at BCcampus. "It was clear to us that Unicon had the technical expertise to assist us with the integration of a complex portal framework that could provide learners and educators with single unified access point to the program and service offerings of all public, post-secondary institutions in British Columbia."

BCcampus is a community of public post-secondary institutions located in British Columbia, Capital University is located in Columbus, OH, Chaminade University of Honolulu is located in Honolulu, HI, University of Kansas is located in Lawrence, KS, Ozarks Technical Community College is located in Springfield, MO, and Rutgers University is located in New Brunswick, NJ.
