

Media Collection

Audio and Video Media

A collection of audio and video presentations relevant to education and information technologies.

Similar to the document collection, media are generally organized by publisher. Some media that are references from documents. The media files are found in the Archives folder of the Media Collection. Sometimes presentations accompanying audio or video records will be included in the Media Collection and referenced from the title page of the recorded sessions.

The primary audio format is .mp3; some QuickTime .mov audio files may be included. There are three video formats, Microsoft .avi, QuickTime .mov, and RealVideo .rm. Players are available from the companies listed below:

QuickTime is a registered trademark of Apple Computer, Inc (www.apple.com). Windows Media is a registered trademark of Microsoft, inc (www.microsoft.com). RealVideo is a registered trademark of RealNetworks, inc (www.real.com).
